

# WANDERCOACHING

SUMMER TERM 2023

Our universities must become more sustainable! Are you a student initiative working towards sustainability at your university? Are you in the founding process and want to get started with full speed right from the beginning? Or have you already successfully implemented some projects and would like to further develop your potential? Apply for our coaching program now!

APPLY  
NOW UNTIL  
FEBRUARY  
28

## SKILLS FOR SUSTAINABLE UNIVERSITIES

Wandercoaching (wander ≈ hiking in German) is not about hiking - it is about how you can implement sustainability in the structures of your university, how you can implement inspiring projects, and how you can grow together as a team in the process. Two student coaches trained by us will 'hike' to your group for a weekend to support you in your engagement towards a sustainable university.

(POTENTIAL) TOPICS DURING THE COACHING WEEKEND

### Group organization

How does your plenary work?  
Does the same person always write the protocol and does everyone know what to do?

### Strategy development

Do you know the most important levers at your university? Do you want to make the university climate-neutral by 2025?

### Project management

Which of your 256 projects will you implement first? And does the IFIG-matrix actually have anything to do with pigs?

### Teambuilding

In addition to all the engagement, there is also something to celebrate: ourselves and the great people who accompany us throughout these challenges.

### Personality development

What strengths do you bring to the group? And in which role do you see yourself in the great transformation?

### Sustainable development

Three-pillar model or rather donut economy? And what do universities have to do with it?

### Universities

Do you know the organizational matrix of your university? What does the Academic Senate actually decide? And to who do you address your ideas?

## APPLY WITH YOUR INITIATIVE

HOW TO APPLY?

**Apply online until 28.02.2023.** Tell us about yourself and your current challenges in the application form OR in an application video (max. 5 minutes). You can enter the information in English. In either case, we need some information about your group. If you prefer to produce a video instead of text, use the questions from the form as a guide and upload the video. The coaching will not cost you anything. However, we can offer coaching to more groups if some of them can be financed (200-300€). This is possible for example through the AStA/StuRa, FSRä (called so in Germany) or similar committees. After a successful application we will contact you and your coaching will take place in the winter semester 2022/23 between October and the end of January.

WHO CAN APPLY?

Applications are open to (student) initiatives, departments, university groups, Students for Future local groups, student councils and green offices / sustainability offices - and those who want to become one. You don't find yourself in the list? Write us at [tara.freude@netzwerk-n.org](mailto:tara.freude@netzwerk-n.org), and we will find out how we can help you.

Go directly to the application via QR (on the right) or via the following link: <https://netzwerk-n.odoo.com/event> and select the event "Application for a coaching" there.
